DEMORALIZATION AND CONFUSION ON THE NEW YORK EXCHANGE.

Advance in Iron and Steel Shares, but Other Active Securities Down -Local Trade Good.

At New York, yesterday, money on call was steady at 3@31/2 per cent.; the last loan being made at 3 per cent.

Prime mercantile paper, 4465 per cent. Sterling exchange was firm, with actual business in bankers' bills at \$4.87\2014.875 for demand, and at \$4.83%@4.84 for sixty days; posted rates, \$4.841/2 and \$4.881/2; commercial bills, \$4.831/2.

Silver certificates, 601/26611/2c; bar silver, 59%c; Mexican dollars, 47%c. At London, bar silver closed steady at 275-16d per

The published opinions and assertions of J. W. Gates, chairman of the American Steel and Wire Company, regarding the present conditions and the outlook for the future in the iron and steel trade, occupied the attention of dealers in stocks and bonds, at New York, yesterday, to the almost total exclusion of all other matters. Demoralization and confusion were the results. A striking commentary on the way the iron and steel stocks are the only ones that show striking net gains, while the net losses everywhere else are undoubtedly due iron trade and in the securities of corporations in that trade. When the urgent demand for the iron and steel stocks was perceived, immediately after the opening drop in them, there was a feeling of relief reflected in a lively recovery of prices all around. The first interpretation of the buying of these stocks was that it contradicted shows a little more activity. All cereals are the gloomy assertions of the chairman of the Steel and Wire Company. The conviction seemed to gather force that this buying might simply represent the taking of

profits by the bears, who had sold in antici-

The assertions of Chairman Gates of overproduction in trade and the necessity for concessions in prices were met by chorus of disclaimers by representatives of other companies in the metal industries and by authorities in the trade. These disclaimers were accompanied by much bitter invective and questioning of motive. The reassurance derived from this source had much to do with the general rally after the opening, but it was not sufficient to allay all doubts caused by the concerted effect of a closing down of a large number of the mills of the Steel and Wire Company. One of the authorities who sought to controvert the position of Chairman Gates, argued that if the iron and steel industry is in as bad condition as Mr. Gates painted then practically all securities are 50 per cent, too high. This authority meant to enforce his view that the high level of securities prices and the general prosperity of the country in themselves serve to controvert the view that the iron trade is unsound, but the belief is deep-rooted among stock operators that the iron trade is a true index of the business of the country. The doubt cast upon its soundness by so prominent an authority proved too for the equanimity of holders of stocks, and towards the latter part of the day these securities were thrown upon the market by the wholesale. Stocks which have been speculative favorites for a rise were not the chief sufferers. Missouri Pacific, Norfolk & Western and the Baltimore de Ohio stocks were comparatively well held, while the higher-priced stocks, which are selling high in proportion to the dividend return showed larger declines. A late rally in the market made it evident to how large an extent short selling had to do with the loss, for the recoveries reached over a point in many cases, while the iron and steel stocks closed 1 to 2 points above last night's level for the leading members of the group. The general news of the day and money market conditions were entirely ignored in the trading.

There was no such pressure in the bond market and strong points were manifest here and there. Total sales, par value, \$2,-490,000. United States old fours declined 1/8 and new threes 1/4 in the bid price. Following were the sales on the Stock Exchange and the closing prices bid:

## WHEAT DULL AND HEAVY

MAY AND JULY OPTIONS LOST 5-8e BUSHEL AT CHICAGO.

Corn Slumped 1c and Oats Droppe 3-8 to 1-2c-Pork and Lard Higher-Ribs a Shade Lower.

CHICAGO, April 17 .- The wheat market was dull and heavy, influenced by the corn break, increased liquidation, the rains and a slack demand, closing %c under yesterday. The corn market dropped 1c from its price at the close yesterday and oats lost %@%c. Provisions closed irregularly, pork 171/2@221/2c up; lard 21/2c higher and ribs unchanged to 21/4c down.

Wheat began the day dull and easy. There was no encouragement in cables, the rains continued to be regarded as favorable to the crop and cash people reported nothing doing. The long stuff soon began to come out more liberally, part of it because it had to be sold, and some in sympathy with the slump in corn. At times the pit was wellnigh as gloomy as the weather to the pedestrian without an umbrella. The liquidation was not in large lots, but the small lots came in plentifully, meeting anything but an urgent demand. The excellent report of the condition of the crop in Kansas was probably a consideration with some, for while there were differences of opinion as to the size of the crop, reasoning from the official figures as to percentage and acreage, it was generally admitted that it would be liberal. Bradstreet's figures, showing a decrease in the world's visible of 2,373,000 bushels, caused a momentary check in the decline-but only a momentary one. New York reported 28 loads taken for export. Atlantic port clearances in wheat and flour were equal to 447,000 bu. Primary receipts were 346,000 bu, compared with 277,000 last year. Minneapolis and Duluth reported 271 cars, against Leather—Oak sole, 33@36e; hemlock sole, 28@ 388 last week and 174 a year ago. Local strap, 42@44e; city kip, 60@85e; French kip, 90c@ receipts were 61 cars, one of contract grade. May opened a shade lower, at 66%@66%c and sold down to 66%c, closing at that figure. %c under yesterday. July opened a shade down at 68c to 67%c, sold down to 67%@671/2c, and closed %c depressed at

The corn market was dull and weak The demand in every way was slack and the fear developed yesterday that the rains would retard seeding and moving the present stores was apparently forgotten. During the first hour the feeling was heavy, but there was almost nothing doing. At the end of that time the long stuff began to come into the pit and as the liquidation was continued the remainder of the session, though in rather small lots, the price suffered. Liverpool was strong, but this was reflected in the local market at the opening by a gain of only a shade. Receipts here were 606 cars. May ranged from 39% c to 38% c, and closed weak, 1c under vesterday at 38%c. July sold from 40%c to 39%c, and closed 1c down at 39%@

There was a continuance of that May liquidation in oats which has been under way for several days, and helped by the weakness around it, the market closed weak. The cash demand was slow. May sold from 23%@23%c to 23%c, and closed %c lower at 23%c; July from 23%c to 23c, closing 1/2c down at 231/4c. Receipts here were 260 cars. There was a big provision trade, the eature of which was pork. Hogs were higher and receipts only 14,000. There was a good general demand and shorts saw fit to cover. Lard and ribs relin-

quished their early gains, but closed steady, while pork, although there was a dip from the early bulge, recovered and yesterday at \$13; July from \$13.021/2 to \$13.221/2. closing 71/2c up at \$13.15. May lard sold from \$7.25 to \$7.40, and closed 21/2c proved at \$7.30; July from \$7.321/2 to \$7.471/6@ 7.50, closing 21/sc better at \$7.371/2. May ribs sold from \$7.20 to \$7.30, and closed unchanged at \$7.221/2; July from \$7.171/2@7.20 to \$7.35, with the close 21/2c lower at \$7.20

UNION STOCKYARDS, INDIANAPOLIS, April 17 .- The receipts of horses for the auction were about 100 smaller than a week ago, and only about half as large as a year ago. About 150 head arrived, including a few of nearly all kinds, but highclass animals were decidedly scarce, and a very large proportion of the supply were medium to heavy chunks, drivers and drafters. There was a good attendance of buyers, especially from Eastern points, and with possibly better inquiry from all sources the market opened with considerable life in the bidding and the trading from the start was active. Prices of harness horses and possibly the best heavy horses were not perceptibly improved compared with last week, but for the most part animals suitable for the Eastern trade. including drivers and medium chunks, were generally considered \$5 per head higher. Afternoon sales were attended by active bidding and prices were as high as in the morning. As to quality, horses weighing 1,100 to 1,300 lbs sold at \$65@125. Those weighing 1,350 lbs and upwards at \$100@160. drivers at \$75@150, and coach at \$110@200.
